INTRO 4 bars — piano alone, establish the stillness

| B $\flat$ | Eb/B $\flat$ | B $\flat$ | Eb/B $\flat$ |

VERSE 1 half-voice, almost spoken — descending bass B $\flat$ –A–G–Eb: the lying-down

B $\flat$ F/A

In the quiet place

Gm7 Ebmaj7

In the lonely place

B $\flat$ /D Ebmaj7

As I lie still

Fsus4 (hold – do NOT resolve)

Will You find me here?

The Fsus4 is the question chord. It stays unresolved every time it appears — until the reprise.

VERSE 2 same stillness — a small warmth on each divine name

B $\flat$ F/A

Father, Father — I long for You

Gm7 Ebmaj7

Jesus, my Saviour — cover me in Your blood

B $\flat$ /D Ebmaj7 Fsus4 F

Spirit of God — won't You guide me now

CHORUS soft, restrained — each line closer than the last

Ebmaj7

Meet me in the valley

B $\flat$ /D

Find me in the waters

Cm7 **Gm7**

Don't let me drown

Ebmaj7 **Fsus4**

Take hold of me

Bb

Pour Your love on me

"Don't let me drown" is the lowest, darkest moment — let it be fragile. "Take hold of me" leans on its two strong syllables: quiet but certain.

Repeat Verse 2 (if anything, quieter) and Chorus.

BRIDGE ×2 — a litany; intensity grows by leaning in, never by volume; still no drums

Gm7 **Ebmaj7**

With every cry, with every tear

Bb **F/A**

I long for You

Gm7 **Ebmaj7**

With every cry, with every tear

Bb **Fsus4** **F** (second time only)

I reach for You

After the second pass: the longest silence in the song — four full beats. What happens next happens in that silence.

VERSE 1 — REPRISE very quiet, tender — the answer

Bb **F/A**

In the quiet place

Gm7 **Ebmaj7**

In the lonely place

Bb/D **Ebmaj7**

As I lie still

Fsus4 **Bb** ← the resolution withheld all song

You have found me here

TAG / OUTRO repeat, each pass quieter — descending bass Eb–D–C–Bb: the settling-in

Ebmaj7 **Dm7**

Father, Saviour, Spirit, Comforter

Cm7 **Bb**

Won't You dwell in me

FINAL near a cappella — the quietest sound in the song

Bb **Bb** ← plagal "Amen" cadence

Won't You dwell in me

Notes for the team: no drum kit anywhere — pads and piano carry everything; the bridge grows by the singer leaning in and the pads swelling. Dynamic ceiling for the whole song is mezzo. Whoever plays keys: the

Fsus4 must never resolve early, however much the fingers itch — the song's entire arc is that suspension answered once, at “You have found me here”. The song must end quieter than it began. Key matches the demo recording (B♭); if the room prefers, C works with the same shapes up a tone — but B♭ keeps everyone low, where the whisper lives.
